Harmonic Analysis | Chord (Music) | Harmony

The original categories 0a and 0b are assigned to non-initial chords in a similar sequence and combine backwards with their preceding chord. This means that it is always the 1st chord in the sequence that must be assigned the category that will be used for the whole sequence. For example, in the sequence 10 11 12 , chords 1 and 2 are given 0 categories and chord 0 is given the category www.mta.ca

Weak symmetric cubical categories are equipped with an action of the n-dimensional symmetric group on the n-dimensional component; this action, besides simplifying the coherence conditions, yields a "symmetric" monoidal closed structure and one path functor. As a consequence, we have a clear notion of higher cubical transformations of symmetric cubical functors (which is not the case in the www.science.gov
