3.2 Entropy of Dynamical Systems We are now ready to define entropy of dynamical systems. By a C^* -dynamical system we mean a triple (A, σ, τ) , where A is a unital C^* -algebra, a state on A , a τ -preserving automorphism of A . If A is a von Neumann algebra and the state is normal, we call (A, σ, τ) a W^* -dynamical system. Definition 3.2.1. The entropy of (A, σ, τ) with respect to a
