Elements, Principles, and Corpuscles is an attempt to set out the influence of alchemy on seventeenth-century corpuscularianism. Clericuzio presents a broad history of the rise of seventeenth-century atomism and corpuscularianism, showing its close connection to the alchemical tradition, and offering some significant reinterpretations of figures, such as Robert Boyle, who have been read as

[What Makes Good Design?: Basic Elements and Principles ...](#)

The principles and elements of design both carry the same weight in executing an effective piece. If you disregard the principles, then you have a visual piece that lacks a story. These principles are guidelines that are used to visually communicate the ideas represented by the elements. In a previous post, we discussed Visual Communication as an effective tool in conveying the company message.
