A Model for Inter-Organizational Business Process Integration

The present paper proposes an integrated model for inter-organizational business process integration. The scope of the model does not end at the execution of processes, but takes also into account

A Model for Inter-Organizational Business Process Integration

The present paper proposes an integrated model for inter-organizational business process integration. The model does not just tackle the execution of processes, but takes into account also the integration process itself, which has turned out to be a key cost driver in many integration projects. After the identification of the market needs, the state of the art is illustrated in terms of technologies and methodologies that facilitate business process integration. Based on this, the model is
