[Human Exploitation and Biodiversity Conservation ...](#)
The sustainable use of biodiversity is one of the three key objectives of the 1992 "Convention on Biological Diversity". To achieve this, sound conservation practice has to be recognized as beneficial and implemented by all who access, or use it from subsistence farmers to skiers and pharmaceutical bioprospectors.

Interactions between human behaviour and ecological systems

Research on the interactions between human behaviour and ecological systems tends to focus on the direct effects of human activities on ecosystems, such as biodiversity loss. There is also increasing research effort directed towards ecosystem services. However, interventions to control people's use
