Microeconomic Analysis of Housing Markets: Towards a ...

The housing sector is of importance in virtually any economy for several reasons. First, housing is an essential consumption good eating up a large share of the typical household's budget. Second, housing is the major, if not the dominant asset in many households portfolio. Third, housing production and maintenance constitute an important segment of the economy's productive sector. Indeed, the housing sector contributes, if not instrumentally, to the formation of business cycles.
