Obstetrics in family medicine | CMAJ

Lapland Dr. Godwin and colleagues[1][1] for advancing our knowledge in this area of importance to the discipline of family medicine and to the provision of obstetrical services to our population. The findings of this study are congruent with what our group found several years earlier[2][2] and

Obstetrics in family medicine | CMAJ

Residents need to feel prepared to do obstetrics at the end of a 2-year residency. If we can keep the 50% of residents who start residency interested in obstetrics still wanting to deliver babies at the end of their residency, we will have increased the rate of new residents doing obstetrics by 3 times what it is now.
